

Cygnets Select

Organic Water Dye

BEAUTIFIES LAKES, PONDS, DECORATIVE FEATURES

KEEP OUT OF REACH OF CHILDREN
CAUTION

NET CONTENTS: 30 U.S. GALLONS
Product #390930

Cygnets Select is an organic water dye for use in golf course water hazards, lakes, ponds, decorative water features and impounded bodies of water with limited or no outflow. Cygnets Select improves the appearance of surface water by turning waters a bright blue or bluegreen color.

DIRECTIONS FOR USE

Use Rubber Gloves to Avoid Staining of Hands

1. Determine water volume (acre-feet) as follows:

Length (ft.) x Width (ft.) x Average Depth (ft.) = Acre-Feet
43,560 sq. ft.

2. Apply 0.25 gal. Cygnets Select per acre-foot of water as determined #1 above.

Acre-foot x 0.25 gal. = Gal. Cygnets Select Required

3. Cygnets Select may be poured directly into the water at several locations or into streams in recirculating systems to enhance dispersion.

4. Additional Cygnets Select may be added, as necessary, to maintain desired coloration.

WATER USE & RESTRICTIONS

- Water may be used for irrigation or fishing immediately following treatment.
- Allow several hours for Cygnets Select to disperse before swimming.
- Treated water will not stain exposed surfaces.
- Treated water will not harm fish, waterfowl pets or wildlife.
- Chlorinated water will cause fading, requiring higher doses or more frequent treatments.

STORAGE AND HANDLING PRECAUTIONS

- KEEP FROM FREEZING. Freezing can cause container to rupture.
- Concentrated product may be harmful if swallowed.
- Avoid contact of concentrated product with skin, eyes and clothing. Wash immediately after contact.
- On most surfaces, small stains caused by accidental spillage can be removed with a liquid bleach solution.
- Background water color such as tannic water or muddy water will affect end color of dyed water.
