

All “Natural” Pond Products

Water Clarity Bacteria

Safely and naturally improves water quality parameters by reducing organic compounds in the water column.

- Reduces Nuisance Algae
- Improves Water Clarity
- Reduces Nutrient Loads
- Safe for Fish and Aquatic Organisms
- Safe for Humans and Pets

Available in 10# and 25# pails. Packaged in 1/2# Water Soluble Packets and Bulk. Cold Water and Summer Blend Available.

Sediment Reducing Bacteria

Safely and naturally reduces the organic muck in the pond without devastating the surrounding landscape

- Reduces Muck
- Increases Water Depth
- Lowers Nutrient Loads
- Safe for Fish and Aquatic Organisms
- Safe for Humans

Available in 25# pails. Packaged in Bulk

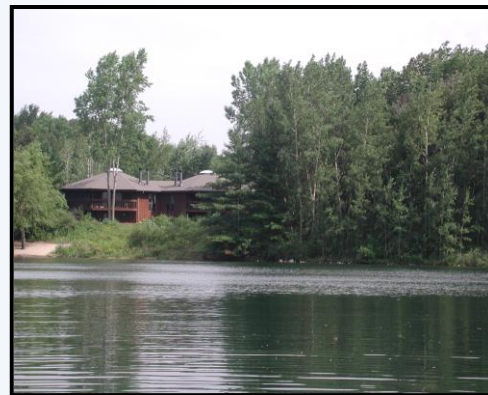

Water Quality Enzymes

Water Quality Enzymes speed up nature’s natural decomposition cycle by turning organics into simple sugars which are quickly digested by bacteria.

Safely and naturally improve the health of your pond by restoring nature’s balance.

- Stimulates “Naturally Occurring” Bacterial Activity
- Improves Water Clarity
- Reduces Pond Odors
- Improves Aesthetics
- Safe for Fish and Aquatic Organisms
- Safe for Humans and Pets

Available in 1, 2.5, 5, and 55 gallon containers.

Polymer Blocks

Polymer Blocks are a group of soil-specific log-blocks that contain blends of water treatment components and anionic polyacrylamide, used for water clarification and erosion control.

Safely and naturally improve the clarity and health of your pond by precipitating out particulates and nutrients.

- **Reduces Phosphorus Levels**
- **Lowers Total Suspended Solids (TSS)**
- **Reduces Pond Odors**
- **Improves Water Clarity**
- **Safe for Fish and Aquatic Organisms**
- **Safe for Humans and Pets**

Pond Colorant

Safely and naturally improve the overall appearance of your pond by introducing food grade colorant to the water.

Blue and Black Colorants Available

- **Reduces Sunlight Penetration**
- **Improves Overall Aesthetics**
- **Adds Appearance of Depth**
- **Removes Stained Brown Appearance**

Application Guide

Problem

Products to be Applied

- | | |
|----------------------|--|
| • Nuisance Algae | Water Clarity Bacteria, Water Quality Enzymes |
| • Excess Muck | Sediment Reducing Bacteria, Water Quality Enzymes |
| • Pond Odors | Water Quality Enzymes, Water Clarity Bacteria, Polymer Blocks |
| • Nutrient Loading | Water Clarity Bacteria, Polymer Blocks, Sediment Reducing Bacteria |
| • Poor Water Clarity | Water Clarity Bacteria, Polymer Blocks, Water Quality Enzymes |
| • Poor Water Color | Pond Colorants, Polymer Blocks |
