

Pond Design & Mapping

Wisconsin Lake & Pond Resource, LLC utilizes multiple mapping software programs to aid in laying out and completing your pond or lake project. These programs include:

- **Google Earth ®**
- **SeMaps***
- **GIS Software**
- **Adobe Photoshop**

When preparing proposals for pond projects, WLPR believes strongly that you deserve to have an accurate outlook as to what to expect when our installers are at your location. When projects come down to price per foot or square foot, every "foot" counts to our staff.

These software programs enable WLPR to make accurate quotes, make any alterations that you may need, and leave you knowing that we take the time to ensure your investment turns out the way you always had dreamed of.

- **Aeration System Design**
- **Decorative Fountain Layouts**
- **Pond Contour Mapping**
- **Health Assessment Reporting**
- **Aquatic Plant Surveys**
- **Storm-Water Assessment Reporting**

SePRO Mapping Assessment Prescription System

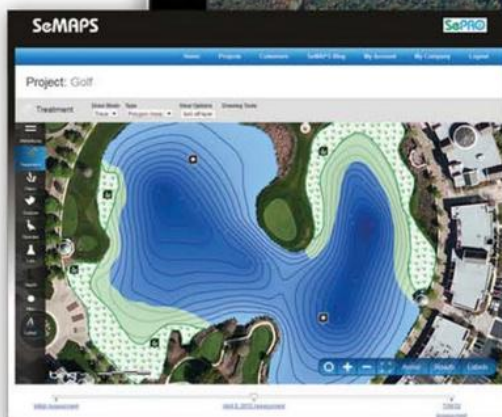

The only comprehensive project and data management solution for water resource managers.

SeMAPS is an innovative project management, planning and centralized record keeping system designed for aquatic applicators and water resource managers. SeMAPS provides quick mapping, accurate prescriptions and real-time service reports. SeMAPS also helps quickly generate superior proposals, track costs and keep companies within regulatory compliance. Its ease-of-use and rapid project data retrieval are second to none.

Simply put, no other tool like it exists for aquatic plant managers and water quality managers.

Key Functions

- Rapid, easy-to-use mapping/GIS
- Customized company reports
- Accurate prescription development
- Integrated treatment record-keeping
- E-mail service reports right from the field
- Cost management
- Laboratory data archive
- Regulatory compliance
- Over 60 operational functions and growing
- Compatible with handheld GPS's, Google Earth,™ Lowrance,™ ArcGIS™ and more
- Complete portability...works anywhere with an internet connection
- Train in only 45 minutes
- iPad App included with annual subscription

*A Better Operational Solution.
A Better Technical Solution.
A Better Business Solution.*
